An innovative leader in Information Technology

Our Faculty

Our faculty members challenge their students, share insights gained through professional experience and communicate the knowledge they've spent a lifetime acquiring. They don't rely on teaching assistants and they're supportive in the classroom.

Testimonials

Most professors and teachers willingly extended a helping hand every time I approached them with unprecedented problems and they always believed in my passion for an applied research career. It is because of the availability of quality resources and the profound experience of my professors at VIT, Pune that I was able to publish papers as an undergrad student and made lasting research contributions in the fields of Artificial Intelligence, Machine Learning and HCI. Moreover, on the non-academic side, I found myself in an environment with gregarious friends and colleagues to share ideas and solutions with, which helped me balance my academic life.

Nikhil Washimkar - ENTC 2016-19
